

## Constricted construction

A hard-to-access site proved no challenge for this team

With a site as difficult as this to access, the team at KMD The Outdoor Construction Company was the obvious choice for such a project.

Specialising in detailed pool construction and project coordination, KMD is a fully licensed and insured Sydney-based pool builder, garden designer and construction company. By demolishing the existing laundry, they were able to establish access to the rear yard. The laundry was later reconfigured and rebuilt by KMD as well.

In conjunction with Dave Merry, Kieran Devlin and the KMD team worked on all aspects on the pool construction project including the Alpine stone walling, timber decking, lighting, paving and coping.

In addition to the timber decking, a timber cladding was featured on a raised wall to tie the decking, fencing and pool together. Plantings of lush foliage soften the overall look and help integrate the built landscape with the leafy natural surrounds.

Aqua-blue tiles ensure the pool sparkles by day, while in-built lights in and around the pool make it shine and catch the eye at night. It is all these small details that make KMD great at what they do.

The full-length swim-out ledge creates an inviting entry to the pool. It also provides a shallow area for kids to safely play, and a cool refreshing seating area, perfect for those hot days.

An entertainment area was built at the far end of the pool. Including a bar, barbecue and

dining area, this space is perfect for entertaining, relaxing or supervising children in the pool. The attached lawn area provides another space for children to play while the adults enjoy the elevated entertaining deck.

KMD can provide everything from initial plans and advice through to full construction and maintenance, from small to large developments.

### Company profile

**KMD The Outdoor Construction Company**  
 PO Box 707  
 Coogee NSW 2034  
 P: 02 9664 6600
